

Our Products

PP Corrugated Sheets

PP Corrugated Sheets are available in sizes, styles, and colors, and it also makes products in custom sizes with a very nominal upcharge.

Details

- Waterproof and chemical effects resistance
- No dust puncture
- Fast cheap
- Reusable and recyclable
- Can be customized

Bubble Sheets

bubble Guard Protection Sheets is manufactured from strong honeycomb polypropylene structure to provide long-lasting protection for various surfaces like windows, doors, stairs, walls, etc...

Details

- Stiff, rigid, and lightweight
- uniform strength in all direction
- can be bent, folded, welded, thermoformed, and fully recyclable
- lamination possible with a soft surface
- can be customized

HDPE sheets

HDPE sheets It is stronger, more useful, more hygienic than the other materials in the sector. it shows extra strength against moisture and chemical actions.

Details

- Abrasion resistance, corrosion resistance
- moisture resistance, heat resistance
- high surface strength, high heat strength
- high toughness and food grade
- extremely tough and easy to fabricate

Our Products

PP Solid Sheets

Polypropylene shows high mechanical strength and tensile strength, but a low notched impact strength. PP resists cracking and it is easy to weld. At minus temperature, it can become brittle. The chemical and electrical properties are very good.

Details

Abrasion resistance, corrosion resistance
moisture resistance, heat resistance
high surface strength, high heat strength
high toughness and food grade
extremely tough and easy to fabricate

Shipping Pallet guard

Plastply Pallet guard sleeve system, the most secure and versatile packaging solutions. The intelligent space-saving unit is comprised of 3 parts Lid, Sleeve, and pallet designed to store and transport ensure that this will be easily integrated into your existing supply chain.

Details

Quick & Easy to use, Easy to Apply no skill requirement
Keeps workspace clean and tidy, Time & Cost saving
Reusable for a long time, High impact resistance
Waterproof, Easy to cut

Pack guard

The Pack guard range of boards are strong and rigid that can be easily fabricated into boxes. Its unique circular honeycomb structure makes it lightweight, durable, impact resistant and liquid proof making it ideal storage solutions for packaging.

Details

Stiff & Rigid, Fully Recyclable
High load-carrying capacity, Can be customized
Uniform Strength, Lightweight
Value-added lamination possible

Applications

Agricultural Industry

Beverage Industries

Building Industries

Floor Guard Sheets

Shipping Guard
